There are names of 16 books of the bible mentioned in the paragraph below. See how many you can find. A minister found 15 books in 20 minutes. But it took him weeks to find the sixteenth one.

“I once made a remark about the hidden books of the Bible. It was a lulu kept people looking so hard for facts... and for others it was a revelation. Some were in a jam, especially since the names of the books were not capitalized. But the truth finally struck home to numbers of our readers. To others it was a real job. We want it to be a most fascinating few moments for you. Yes, there will be some really easy ones to spot. Others may require judges to help them. I will quickly admit it usually takes a minister to find one of them, and there will be loud lamentations when it is found. A little lady says she brews a cup of tea so she can concentrate better. See how well you can compete. Relax now, for there really are sixteen names of books of the Bible in this paragraph.”
